Find out more about Qatar at The Business and Investment in Qatar Forum, from April 6-7, 2011 at The Waldorf Astoria in New York.

Hosted by H.E. Sheikh Hamad Bin Jassim Al Thani, Prime Minister and Minister of Foreign Affairs of the State of Qatar, the forum will reveal how Qatar’s Vision 2030 aims to leverage oil and gas wealth to develop an open, competitive economy and build a prosperous, progressive society at the heart of the Arab World.

According to the International Monetary Fund, Qatar’s economy will grow by 20% this year. The government has dedicated 40% of its record 2011 budget to development projects. And, over the next decade, investment is estimated to hit $130 billion, transforming the state into a regional and global business and investment hub.

The government’s commitments to education, entrepreneurship, and the environment will improve quality of life for all Qataris over the next generation. And, last December, Qatar was awarded the 2022 FIFA World Cup, placing the state front and center on the world’s stage as the host of a truly global sporting event.

The two-day forum, attended by high-level figures from the public and private-sectors, will reveal the latest economic trends and opportunities and help to establish new links between the West and the Middle East.

Join some of the biggest names in the business world and discover Qatar’s future, today.
